BELKIN

17" LCD Rack Console with Dual-Rail Technology

Belkin's 17" LCD Rack Console enables secure and compact centralized server control. Independently sliding rails allow the high-grade, 17-inch LCD to remain displayed, even with the keyboard stored. With its slim 1U design, the LCD Rack Console fits a standard 19-inch, 4-post rack and works with any server or KVM switch. The LCD Rack Console offers an affordable solution with Belkin reliability, quality, and support.
